Pattens Cottage, Pickett Lane	5	O2	Zero, indoors and out	
Mohun House DT8 3HZ	2	O2	1/2 bars upstairs only	Unreliable signal. Can send & receive texts but no calls
Church Gate Cottage Church Hill	2	Vodafone	1 to 2 in the house at best	Consistently weak. Can rarely get a signal in the garden. Can get a signal through rear downstairs kitchen back door or upstairs back bedroom window.
Hill Farm House, DT8 3HS	1	Vodafone	Highly variable. 1 to 3 bars	Can only get reception by placing/using phone in windows at front of house or outside
Hill Cottage, Church Hill	2	Tesco O2	None	Have to walk up to churchyard and stand on back wall to send/receive a text - and forget actually trying to speak to someone!
Church Hill Cottage	2	EE	No signal in house	Intermittent signal at the end of the garden - but not reliable Intermittent signal in the Churchyard For a reliable data signal we generally have to drive to Beaminster eg to upload files
Pipplepen Farm Cottages	3	Tesco	Very hit and miss 1 Or 2 bars	Different phones with same sim card have differing results, getting fed up with hanging out of bedroom window or having to run to end of garden near Pipplepen Farm to answer phone..Can't get signal in village at all.
22, School Hill	3	Talk Mobile (Vodafone?)	0 to 3 bars	Only reliable signal strength (sufficient to conduct a conversation) is upstairs in the back bedroom.
Bakers Arms	2	EE	None in house	1-2 bars variable at points in the garden; 2 bars reliable at highest point in garden near our Gazebo (level with School Hill)
Sockety Farm	7	EE/Orange Vodafone	No reception downstairs. Upstairs bars come and go.	
Bridge Farmhouse	5	O2	No signal in house	Outdoors - none until 50 metres from the house in an easterly direction (in our parking area.) Signal strength - one bar.
12, Parrett Mead	4	Sainsbury (Vodafone)		Pathetic, if lucky one bar on the arm of the living room chair towards the back of the room. The odd flicker of recognition very rarely in the upstairs back bedrooms. If we try out the front of the house on the road we sometimes get one bar.

14 Parrett Mead	4	O2 Vodafone	Nil	O2: There is an occasional weak signal spike upstairs by north facing windows which can allow receipt of the odd text if the conditions are right. It is not reliable enough to use. Definitely not good enough for calls or data. I use the TuGo app on O2 which provides some voice/text over wifi, but again not 100% reliable. Vodafone: Best reception on south facing side of house. Signal is unreliable, but a lot better than O2 - I have actually held calls whilst stood on my driveway. Also I get a weak data signal so emails and IM messages come through.
11 Parrett Mead	4	Virgin	Zero	On the very odd occasion a signal appears on the phone in the upstairs bedrooms but last for only seconds!!
Rowan Tree Cottage, South Perrott DT8 3HU	7	Vodafone and O2	2 bars garden; 0-1 upstairs; 1-2 downstairs	Sometimes no signal downstairs.
Riverside	2	Vodafone	0-1 bar	Slight signal at upstairs window
Sunnyside, Pipplepen Lane	3	Three and O2	None indoors. Occasionally one in garden	Three provides an App that allows use of WiFi for sending/receiving texts and calls. "A good service".
Holt Farm, Old Golf Course	7	Vodafone	One, sometimes two bars	
9 Manor Close	5	Utility Warehouse EE (work)	One bar sometimes.	Can perhaps receive a text but not make a call.
3, Parrott Mead	4	BT	Zero	
Shire Cottage	1	Three	Zero	Have to go outside into courtyard to get any sort of signal
Rose Cottage Church Hill	2	No mobile phone		
Court Staddle Barn	4	1 Vodafone and 2 O2	1: zero 2: 1 bar at back of garden	Can occasionally receive texts at back of garden but not send them

The Coach House	6	BT	Zero	
Grey Abbey	7	EE	low	Intermittent signal
Threshers Barn, Hill Farm	1	O2 and EE	Both awful to poor	Need to drive to get a signal. No reception indoors.
21 School Hill	3	O2	Naff to average (2 to 3 bars)	Back of house upstairs best
Badger Cottage	2	EE	1 occasionally	Unreliable signal in conservatory and hanging out of back bedroom window. Not reliable enough to use phone as signal keeps coming and going. Not able to receive texts.
11 School Hill	3	Orange	Nil	
8 Manor Close	5	EE (T Mobile & Orange) Tesco	Zero to one bar	No signal at all indoors on our networks or visitors phones. Variable signal from bedroom window or in back garden (none if weather bad). Can usually get signal up Picket Lane or to dam.
Court Church Farm	4	Tesco - O2 EE 3	Fair 2G 0-4 inside N Facing Fair to poor 2G & 3G 0-2 Good 3G 6 (see note)	3 through Internet access
The Granary, Hill Farm	1	BT	Poor	Have to go to the Barn garages to get a signal Mobile not used at home.
15 School Hill	3	EE O2	EE No bars (has Internet connection) O2 1 bar	To make or receive calls I have to walk into my garden
Owl Cottage	2	Vodafone	0-1 bar	Can sometimes send a text from certain parts of the house/garden & texts sometimes take 24hrs to reach me at home.
Court Farm Cottage	4	Only used for emergencies	Nil or staccato	Has to drive up Lecher Lane for a signal. On the occasion of a storm bringing land line down, ringing from Kent to check on damage at home, totally unable to get through for five days. Extremely worrying.

2 Parrett Mead	4	EE Vodafone	0 bars	Occasionally a signal received but not often enough to be relied upon. Can take two days to receive a message (by text or phone). Most inconvenient - if we give our mobile numbers we have to advise that it is not our preferred method and default to the land line.
	7	EE O2	1 Bar, but cuts out when answered	2 bars outdoors, improves the higher up the field you go.
8, School Hill	3	EE Vodafone	1 bar	Can only get reception when the phone is up against the window & outside can rarely get any signal at all. Overall, terrible signal.
Old Sarum	6	Vodafone Virgin		...only way I have been able to get an effective signal at Sarum is to stand on a six feet high bank, in all weathers, at the top of our garden. The bank is located some 120 yards from the house. About seven years ago my son complained to Vodafone about the poor signal in South Perrott. In response, they said they had noted the problem and it would included in their future development plan!
7 Parrett Mead	4	Talk Talk	Non existent

10 School Hill	3	EE		1 bar on GPRS at the window no service all other areas of the flat. I'm currently on EE and have hardly any signal at all around the flat. To get any reception I have to hang out the window and then the signal (all of one bar) will just cut off mid conversation. This was extremely worrying as I moved in whilst heavily pregnant and whilst I had to call my midwives when I was in labour the phone cut out on me several times. I do pay quite a lot for my contract and did raise this with EE they eventually gave me 25 percent off my bill every month by this still doesn't help the fact I'm tied into a contract with a phone I can't really use. EE also advised me to get wifi so they could set up wifi calling when I informed them I won't be getting the Internet for some time for the wifi calling to work they then advised me to ask my neighbour downstairs for there internet password so I could use wifi calling!! I was shocked when they advised me to do that! I eventually got a internet dongal with 3 and place this on the Window seal (sic) so I now have wifi to use the Internet on my phone ECT but this is another service I have to pay for.
Hillbrook House, Church Hill,	2	O2		Possible signal in 2nd floor attic conversion with window open, facing West.
The Old Rectory	6	Vodafone	1 bar	I can get 2 bars if I go up into the attic and hang out the window
18 School Hill	3	EE	2	Signal varies a lot and we lose a lot of calls. If we walk into the village there is no reception
Winterhays	3	EE	Full	Quite good reception but better by window.
Tumberland	1	No mobile	Full	We do not have a mobile phone but when our family visit the quality is good.

	4	Orange	Nil	
23 School Hill	3	Orange Tesco	1-2 Bars 3-4 Bars	Orange: Can send texts OK from most places in the house although there are dead spots. But cannot make/receive calls consistently. Only reception strong enough from upstairs back bedroom and downstairs back kitchen. Tesco: Can make/receive texts and calls from all over the house consistently and can make/receive calls. A few dead spots occasionally.
7 Manor Close	5	EE	varies	Reception seems to depend on weather - also EE (Everything, Everywhere, except where you are!). Seems to work better towards back of house/ garden.
Church Gate Cottage Church Hill	2	Vodafone	1-2 Bars if phone propped against rear window, otherwise nil.	To make any sort of reliable calls I have to stand in the church yard. Not fitted Sure Signal because used as holiday home.
